

Innovation as a success factor The Cleanzone Award is entering the next round

Frankfurt am Main, 10 04 2024. The Cleanzone Award is firmly established in the industry since 2012. Companies, research institutions and individuals have the opportunity to submit their ideas and innovations in the field of cleanroom technology. The award will be presented at Cleanzone on 26 September 2024 in Frankfurt. The closing date for applications is 1 July 2024.

Innovations, for example in digitalisation and in the field of artificial intelligence, are driving the cleanroom industry while also contributing to the sustainability and profitability of companies. Cleanzone showcases technical and innovative solutions in this area. With the Cleanzone Award, together with Wiley-Verlag and its publication "ReinRaumTechnik", it also supports companies in their endeavours to introduce innovations to the market. Submissions can be made for products, ideas and innovations that contribute to making clean production processes more efficient and sustainable.

The award is addressed to companies, organisations, scientific institutions and individuals worldwide. It recognises pioneering advances in automation, sustainability and efficiency in cleanroom technology. A high-calibre jury will nominate up to five outstanding concepts, which will be presented at Cleanzone. The winner will be chosen by the visitors during the trade fair. The award will be presented on 26 September 2024 at Cleanzone in Frankfurt am Main. The winner will receive a cheque for 3,000.00 euros from Cleanzone media partner "ReinRaumTechnik".

Submissions can be made from now until 1 July 2024 via the following link:
